

## Bell Orthodontic Solutions - Virtual Consults

We've developed a virtual consult platform that allows us to interact with you from the comfort of your own home! It will allow us to answer some very common questions that we often receive:

- Am I a candidate for Orthodontic treatment (Invisalign or Braces)?
- How long would treatment take?
- What would treatment involve?
- How much will it cost?

### Just 4 simple steps to get us connected and ready for your virtual consult

**STEP 1.** Complete our Online Medical History Form ([click here](#)).

**STEP 2.** Download the 'Zoom' app on either your mobile phone or desktop computer (whichever you would like to use). You don't need to register, just download the application.

*Mobile Phone:* search 'Zoom Could Meetings' in the app store or Google Play

*Desktop computer:* ([click here](#))

**STEP 3.** Three quick facial photos. Facial photos should be taken against a plain wall with your phone camera flash on. They should be from the shoulders up as shown below:

Profile view, lips together and relaxed

Facing the camera, lips tougher and relaxed

Facing the camera smiling

**STEP 4.** Five quick teeth selfies. All you'll need to capture these photos is a cell phone and a pair of spoons. The spoons will be used to keep the cheeks and lips out of the way so that we can get good views of your teeth. Please be sure the flash is on while you take them. Below are examples of what the photos should look like.

Frontal view  
biting down

Right side view

Left side view

Upper view

Lower view

You can either TEXT the photos to us at (262) 377-7410 or email to us at [drbell@bellortho.com](mailto:drbell@bellortho.com). That's it! You are ready to go!
